

Proposal for One-Year Fellowship Programs in Allied Healthcare

Introduction

This proposal outlines a structured set of one-year fellowship programs designed for graduates of BSc/MSc and allied healthcare disciplines. These programs aim to enhance specialized clinical skills and improve employability in advanced healthcare settings.

Cardiac Care Programs (Post BSc/MSc Cardiac Care)

- Fellowship in Interventional Cardiac Care
- Fellowship in Echocardiography
- Fellowship in Cardiac Physiology

Anesthesia Technology Programs (Post BSc/MSc Anesthesia Technology)

- Fellowship in Physician Assistant
- Fellowship in Pain Medicine Technology
- Fellowship in Oncology Surgery Technology
- Fellowship in Robotic Assisted Surgery Technology

Medical Imaging Programs (Post BSc/MSc Medical Imaging Technology)

- Fellowship in Interventional Radiology Technology
- Fellowship in MRI
- Fellowship in Cardiac Imaging

Respiratory Therapy Programs (Post BSc/MSc Respiratory Therapy)

- Fellowship in Intensive Care Therapy
- Fellowship in Interventional Pulmonary Care

- Fellowship in Pulmonary Rehabilitation

Specialized Program

- Fellowship in Hyperbaric Oxygen Therapy

Physiotherapy Programs (Post BPT/MPT)

- Fellowship in Pulmonary Therapy
- Fellowship in Sports Therapy
- Fellowship in Neuro Physiotherapy
- Fellowship in Cardiac Physiotherapy
- Fellowship in Advanced Wireless Electrotherapy
- Fellowship in Geriatric Rehabilitation
- Fellowship in Oncology Physiotherapy

Neurosciences Technology Programs (Post BSc/MSc Neurosciences Technology)

- Fellowship in IONM (Intraoperative Neuro Monitoring)
- Fellowship in Neuro Interventional Technology

Perfusion Technology Programs (Post BSc/MSc Perfusion Technology)

- Fellowship in ECMO (Extracorporeal Membrane Oxygenation)

Occupational Therapy Programs

- Fellowship in Neuro Occupational Therapy
- Fellowship in Cardiac Occupational Therapy
- Fellowship in Pulmonary Occupational Therapy
- Fellowship in Oncology Occupational Therapy
- Fellowship in Sports Occupational Therapy

Program Duration

Each fellowship program will be of one-year duration, including theoretical training, clinical exposure, and hands-on practice.

Conclusion

These fellowship programs are designed to meet the growing demand for specialized healthcare professionals and provide advanced career opportunities in hospitals, research institutions, and healthcare organizations.
